13. Before You Publish This Document

1. Introduction & Acceptance of Terms

These Terms of Service, together with the User Agreement, Privacy Policy, and Data Deletion Policy set out below (collectively, the "Terms"), govern access to and use of the **Staykolo** mobile application and website (the "Platform" or "App"), operated by **CoreForge** ("CoreForge", "we", "us", or "our"), a company/proprietorship based in Bengaluru, Karnataka, India.

By downloading, installing, registering on, or otherwise using the Platform whether as a Property Owner, Property Manager/Warden, Staff Member, or Tenant/Resident (each a "User", collectively "Users") you agree to be bound by these Terms. If you do not agree, you must not access or use the Platform.

If you are entering into these Terms on behalf of a business (for example, listing a PG/co-living property as an Owner), you represent that you have the authority to bind that business, and "you" refers both to you and that business.

We may update these Terms from time to time. We will notify Users of material changes through the App or by email at least 7 days before the changes take effect. Continued use of the Platform after changes take effect constitutes acceptance of the revised Terms.

2. Definitions

- "Platform" means the **Staykolo** website and mobile application, and all related services, features, and content.
- "Owner" means a person or entity who lists a PG/co-living property on the Platform.
- "Tenant" or "Resident" means a person who books, subscribes to, or resides at a property listed on the Platform.
- "Staff" means wardens, caretakers, or other personnel granted access to manage a property through the Platform.
- "Content" means listings, photos, descriptions, reviews, messages, and any other material submitted to the Platform.
- "Personal Data" has the meaning given under the Digital Personal Data Protection Act, 2023 ("DPDP Act") any data about an individual who is identifiable by or in relation to such data.
- "Services" means property listing and discovery, digital rent/subscription tracking, QR-based WiFi and access provisioning, visitor logging, complaint/issue tracking, staff attendance, notices, and related features described on the Platform.

3. User Agreement & Eligibility

3.1 Eligibility

You must be at least 18 years old and capable of entering into a legally binding contract under the Indian Contract Act, 1872 to use the Platform. By using the Platform, you represent that you meet this requirement.

3.2 Account Registration

You must register using accurate, current, and complete information, including a valid phone number and/or email address. You are responsible for maintaining the confidentiality of your login credentials and for all activity that occurs under your account. You must notify us immediately at the support contact below if you suspect unauthorized use of your account.

3.3 User Roles & Access Control

The Platform assigns role-based access (Owner, Staff/Warden, Tenant) so that each User can only view or manage information relevant to their role. Owners are responsible for correctly assigning and revoking Staff access, including when a Staff member's employment ends.

3.4 Owner Obligations

- Provide accurate property details, pricing, amenities, and photographs.

- Comply with all applicable local, municipal, and state laws relating to PG/rental accommodation, including but not limited to police verification of tenants where mandated by local regulations, fire safety norms, and building/occupancy regulations.
- Obtain and maintain any licenses or registrations required to legally operate a paying-guest accommodation in the relevant jurisdiction.
- Honour the terms of any tenancy/leave-and-license agreement entered into with a Tenant, independent of the Platform.

3.5 Tenant Obligations

- Provide accurate identification and contact information as required for onboarding and, where applicable, police verification.
- Comply with the property's house rules, visitor policies, and payment schedules.
- Use shared amenities, WiFi access, and QR-based entry systems only for their intended purpose and not share access credentials with unauthorized persons.

3.6 Prohibited Conduct

- Posting false, misleading, or fraudulent listings or reviews.
- Attempting to bypass, hack, or misuse the QR-based access, WiFi provisioning, or security systems.
- Harassment, discrimination, or unlawful conduct towards other Users or Staff.
- Using the Platform for any unlawful purpose or in violation of any applicable law.

4. Subscription, Payments & Billing

Staykolo is offered to Owners on a subscription basis as described on the Platform's pricing page, which may include promotional/introductory pricing (for example, limited free or discounted slots for early subscribers). Promotional pricing is offered at our discretion, may be time-bound, and may be modified or withdrawn for new subscribers at any time without affecting Users already enrolled at that rate for the promised duration.

Where the Platform facilitates online rent or subscription payments through a third-party payment gateway, such payments are subject to the payment gateway provider's own terms, and **CoreForge** is not responsible for failures, delays, or errors caused by the payment gateway or the User's bank. Where the Platform is used only to track or remind Users of payments made outside the App (offline/bank transfer/cash), **CoreForge** does not process, hold, or guarantee those payments and is not a party to the underlying rent agreement between Owner and Tenant.

Subscription fees, once paid, are non-refundable except where required by law or expressly stated in a specific offer's terms. We will provide reasonable advance notice before any price change takes effect for existing subscribers.

5. Platform Features & Disclaimers

The Platform provides tools including, but not limited to: automated property profile creation and marketing, tenant-matching alerts, QR-based WiFi provisioning and automatic credential refresh, QR-based access/entry, visitor logging, staff attendance tracking, furniture/asset inventory, issue/complaint raising and tracking, and payment/agreement/deposit notices, as illustrated in the Platform's feature overview.

These features are provided as a management and convenience tool. **CoreForge** does not guarantee tenant occupancy, rental income, or any specific business outcome for Owners. Physical security of the property (locks, guards, CCTV hardware, fire safety equipment) remains the Owner's responsibility; the Platform's digital access/QR features supplement, but do not replace, physical security measures.

CoreForge Technologies is a technology platform and is not a party to, and does not guarantee performance of, any tenancy, leave-and-license, or rental agreement entered into between an Owner and a Tenant.

6. Intellectual Property

All trademarks, logos, app design, source code, and content created by **CoreForge** (excluding User-submitted Content) are the property of **CoreForge** and may not be copied, reproduced, or used without prior written consent. Users retain

ownership of Content they submit (such as property photos) but grant **CoreForge** a non-exclusive, royalty-free, worldwide licence to host, display, and use that Content for the purpose of operating and promoting the Platform.

7. Limitation of Liability & Indemnity

To the maximum extent permitted by applicable law, **CoreForge** shall not be liable for any indirect, incidental, special, or consequential damages, or loss of profits, revenue, or data, arising from use of, or inability to use, the Platform. **CoreForge** aggregate liability for any claim arising out of these Terms shall not exceed the subscription fees paid by the User to **CoreForge** in the three (3) months preceding the claim.

Nothing in these Terms limits liability that cannot be limited under applicable Indian law, including liability arising from gross negligence, wilful misconduct, or fraud.

You agree to indemnify and hold harmless **CoreForge**, its officers, employees, and agents from any claims, damages, or expenses (including reasonable legal fees) arising from your breach of these Terms, your Content, or your violation of any law or third-party right.

8. Suspension & Termination

We may suspend or terminate a User's access to the Platform, with or without notice, if we reasonably believe the User has violated these Terms, engaged in fraudulent or unlawful conduct, or misused the security/access features of the Platform. Users may terminate their account at any time by contacting support; termination does not entitle the User to a refund of subscription fees already paid, except as required by law.

Upon termination, an Owner's property listing and associated data will be handled in accordance with the Data Deletion Policy in Section 12.

9. Governing Law & Dispute Resolution

These Terms are governed by the laws of India. Subject to Section 9 below, the courts at Bengaluru, Karnataka shall have exclusive jurisdiction over any disputes arising out of or in connection with these Terms.

Any dispute, controversy, or claim arising out of or relating to these Terms shall first be referred to good-faith negotiation between the parties. If not resolved within 30 days, the dispute shall be referred to and finally resolved by arbitration under the Arbitration and Conciliation Act, 1996, seated in Bengaluru, Karnataka, conducted in English, before a sole arbitrator appointed by mutual agreement. This clause does not prevent either party from seeking urgent interim relief from a competent court.

10. Privacy Policy

This Privacy Policy explains how **CoreForge** collects, uses, shares, stores, and protects Personal Data through the **Staykolo** Platform, in accordance with the Digital Personal Data Protection Act, 2023 ("DPDP Act"), the Information Technology Act, 2000 and rules made thereunder, and other applicable Indian law.

10.1 Data We Collect

- Identity & contact data: name, phone number, email address, photograph, government ID details (where required for tenant verification).
- Property data: address, room/bed configuration, amenities, rent, occupancy status.
- Occupancy & operations data: staff attendance records, visitor logs (visitor name, resident visited, entry/exit time, purpose), furniture/asset inventory, utility (water/electricity/WiFi) status reports.
- Financial data: rent/subscription amounts, payment status, deposit details, and (where payments are processed through the Platform) transaction references from the payment gateway. **CoreForge** does not store full card or bank account numbers; these are handled by our payment gateway partner.
- Access & device data: QR-based WiFi/access credentials and logs, device identifiers, IP address, app usage/log data, notices and complaint/issue records with photos or descriptions submitted by Users.
- Communications: messages, complaint descriptions, and support interactions submitted through the Platform.

10.2 How We Use Personal Data

- To create and manage property listings, tenant-matching alerts, and marketing of properties to prospective tenants.
- To operate role-based access control, QR WiFi/entry provisioning, and automatic credential refresh.
- To maintain visitor logs, staff attendance, issue tracking, and notices for property management and safety purposes.
- To send payment reminders, agreement, and deposit-related notices.
- To provide customer support, respond to queries, and improve the Platform.
- To comply with legal obligations, including tenant verification requirements under applicable local police/municipal regulations, where such verification is enabled through the Platform.

We process Personal Data on the basis of your consent (obtained at sign-up and at the point specific features are used), for the performance of the contract between you and **CoreForge**, and, where applicable, to comply with legal obligations.

10.3 Sharing of Personal Data

We share Personal Data only as necessary: (a) between an Owner/Staff and their Tenants, and vice versa, to operate the Services (e.g., an Owner sees Tenant contact and payment status; a Tenant sees property/Owner contact details); (b) with payment gateway providers, cloud hosting providers, SMS/notification providers, and other service providers who process data on our behalf under contractual confidentiality obligations; (c) with law enforcement or government authorities where required by law, such as tenant verification mandated by local police regulations; (d) in connection with a merger, acquisition, or sale of assets of **CoreForge**, subject to equivalent privacy protections. We do not sell Personal Data to third parties for their independent marketing use.

10.4 Data Storage & Security

Personal Data is stored on secure servers, with access restricted through role-based permissions as described in Section 3.3. We use reasonable technical and organisational measures including encryption in transit, access controls, and automatic credential refresh for WiFi/access QR codes to protect Personal Data against unauthorized access, alteration, disclosure, or destruction, in line with the reasonable security practices standard under the IT Act, 2000 and applicable rules. No method of transmission or storage is 100% secure, and we cannot guarantee absolute security.

10.5 Data Retention

We retain Personal Data for as long as your account is active and as necessary to provide the Services. Visitor logs, attendance records, and complaint/issue records are typically retained for [Declared Soon] for safety, audit, and dispute-resolution purposes, unless a longer period is required by applicable law (for example, records related to tenant

verification, which may need to be retained per local police/municipal requirements). Financial records may be retained longer where required for tax or accounting compliance.

10.6 Your Rights (Consent, Access, Correction & Erasure)

In accordance with the DPDP Act, 2023, you have the right to: (a) obtain a summary of the Personal Data we hold about you and the processing activities carried out; (b) correct or update inaccurate or incomplete Personal Data; (c) request erasure of your Personal Data, subject to Section 12 (Data Deletion Policy) and any legal retention requirements; (d) withdraw consent at any time for processing that is based on consent, without affecting the lawfulness of processing carried out before withdrawal; (e) nominate another individual to exercise these rights on your behalf in the event of death or incapacity; and (f) file a complaint with the Data Protection Board of India if you believe your rights have been violated, after first raising the grievance with our Grievance Officer below.

Withdrawing consent or requesting erasure of certain data (for example, tenant verification details required by local law, or financial records required for accounting) may mean we are unable to continue providing some or all Services to you, and we will inform you of this before processing your request.

10.7 Cookies & Analytics

The Platform may use cookies, SDKs, and similar technologies to remember preferences, keep you logged in, and understand how the Platform is used, so we can improve it. You can control cookie preferences through your device/browser settings, though disabling cookies may affect some features.

10.8 Children's Data

The Platform is not directed at, and does not knowingly collect Personal Data from, individuals below 18 years of age acting as independent Users. If you believe a minor has provided Personal Data to us without appropriate consent, please contact us using the details below so we can take appropriate action.

10.9 Grievance Officer & Contact

In accordance with the IT Act, 2000, its rules, and the DPDP Act, 2023, the contact details of our Grievance Officer / Data Protection contact are provided below. [Declared Soon]

"ALL AT ONE CLICK"

11. Account & Data Deletion Policy

This section describes how Users can request deletion of their account and Personal Data, and how **CoreForge** handles such requests.

11.1 How to Request Deletion

Users may request deletion of their account and associated Personal Data at any time through the "Delete Account" option in the App's settings, or by writing to our support/Grievance Officer contact with the request. We will verify the identity of the requester before processing the request.

11.2 What Happens on Deletion

- Profile information (name, contact details, photograph) will be permanently deleted from active systems within 30 days of a verified request.
- Property listings created by an Owner will be delisted immediately and permanently deleted within 30 days, unless there is an active, unresolved tenancy or dispute linked to that listing.
- Visitor logs, attendance records, and issue/complaint records directly tied to your account will be deleted or anonymised within 30 days, unless retention is required for safety, audit, legal, or regulatory purposes (for example, tenant verification records required by local police regulation, or records relevant to an ongoing dispute or legal claim), in which case we will retain only what is necessary and inform you of the retention reason and expected duration.
- Financial and transaction records may be retained for the period required under applicable tax, accounting, and audit laws, even after account deletion, but will not be used for any purpose other than legal/regulatory compliance.
- Backups: Personal Data may persist in encrypted backups for a limited period (e.g., up to 90 days) after deletion from live systems, after which it is purged in the ordinary backup-rotation cycle. Backup copies are not used for active processing.

11.3 Effect on Other Users

Where your data is also part of another User's records required for their own legal or safety compliance (for example, an Owner's visitor log which includes a Tenant's visit details, or a Tenant's record of a completed tenancy needed for an Owner's compliance records), we may retain the minimum necessary information within that other User's records even after you delete your own account, to the extent permitted by law.

11.4 Confirmation

We will send a confirmation once your deletion request has been processed. If any data is retained beyond the standard 30-day period, we will explain what is retained, why, and for how long.

12. General Provisions

12.1 Severability

If any provision of these Terms is found unenforceable, the remaining provisions will continue in full force and effect.

12.2 Entire Agreement

These Terms constitute the entire agreement between you and **CoreForge** regarding use of the Platform and supersede any prior agreements on this subject, except any separate written tenancy/leave-and-license agreement between an Owner and Tenant, which remains independently binding between those parties.

12.3 Assignment

You may not assign or transfer your rights under these Terms without our prior written consent. **CoreForge** may assign these Terms in connection with a merger, acquisition, or sale of assets.

12.4 Force Majeure

CoreForge Technologies shall not be liable for any failure or delay in performance resulting from causes beyond its reasonable control, including natural disasters, power or internet outages, government action, or other events of force majeure.

12.5 Contact

For questions about these Terms, the Privacy Policy, or to exercise your data rights, please contact us at: [Support email Soon], [Support phone number soon], **CoreForge**, Bengaluru, Karnataka, India.
